GE CAPITAL

Size: 60,000 Square Feet

Location: Fremont, California

Challenge *Aging BUR Capsheet Roof*

- Aging BUR capsheet.
- Numerous leak-prone penetrations.
- Multi-story building.

Solution *AcryShield® Restoration System*

- Superior waterproofing at penetrations with self-flashing SPF.
- No business disruptions or harmful fumes.
- Extended roof life without UV degradation and heat stress.
- Lower energy and life-cycle costs.

GE Capital shows property managers how to keep their buildings watertight at lower costs by strategically employing high performance coatings and SPF.
